Project Name : English Writing Practice Project

Motivation : After failing to win a prize in the Northern Taiwan Composition,
I decided to improve my writing skill, indulging myself in words.

自主學習成果紀錄表

Method and Strategies

I read writing examples and novel to collect elegant sentences. Then, I finished a composition on a weekly basis. After finishing, I sought advice from my English teacher.

Expected Goal

1. Read at least ten pieces of passages and one novel through the whole semester.
2. Practice English writing more than ten times.
3. Get a prize in the school composition contest.

Achievement Description

I only finished writing seven passages, but I found a wealth of excellent sentences, and I put them into practice in writing. By virtue of the experience, everything went smoothly in the contest, and I got first place this year.

Process and Experience

When first practicing writing, I found that I usually got off to a good start but went off on a tangent in the body parts. Therefore, I tried to the best of my ability to focus on the bullet points I set up in the beginning. Then, my road to writing progressed a lot as if it got into full swing.
